

## Generative AI declaration form for assignment submission

### Q1. Student Information

|                  |                                           |
|------------------|-------------------------------------------|
| Name & Surname   | Mekayle Rajoo                             |
| Student Number   | u26834414                                 |
| Course Code      | MIT805                                    |
| Assignment Title | MIT 805: Big Data Semester Project (2026) |

### Q2. AI Declaration [tick one box]

|                                                                               |                                                                                 |
|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| 1. I <b>used</b> Generative Artificial Intelligence in the current assignment | <input checked="" type="checkbox"/> - for debugging and explaining new concepts |
| 2. I did <b>not</b> use any Gen AI for the current assignment                 | <input type="checkbox"/>                                                        |

Ensure you are permitted to use generative AI by reading the instructions for your assignment or assessment, or by consulting your study guide. Failure to follow the instructions regarding using generative AI for your assignment constitutes academic dishonesty. Examples of generative AI include ChatGPT, Google's Gemini, Microsoft's Copilot, Claude, and Meta's Llama 3 AI integrated into WhatsApp and Facebook. If you selected option 1 in Q1, please continue to complete the rest of the form:

### Q3. Prompts used

Please paste all the prompts you created for the assignment and indicate which aspect(s) of the assignment the specific prompt was used for.

| AI Tool | Prompt | Aspect of Assignment |
|---------|--------|----------------------|
| N/A     |        |                      |
|         |        |                      |
|         |        |                      |
|         |        |                      |
|         |        |                      |

### Q4. Type of usage

Briefly describe the features for which you used the Gen AI. You may say "Not Applicable" where needed:

| Feature used                      | Description                             |
|-----------------------------------|-----------------------------------------|
| Brainstorming and idea generation | N/A                                     |
| Language editing suggestions      | N/A                                     |
| Feedback and revision suggestions | Debugging code errors                   |
| Explaining complex concepts       | Trying to understand how PySpark works. |
| Writing coach                     | N/A                                     |
| Other (please specify):           | N/A                                     |

### Q5. Ethical use

Write a brief paragraph explaining how you ensured the usage of Gen AI was aligned with the ethical and responsibility requirements of the University of Pretoria ([link](#)). Consider examples such as repurposing and reintegrating ideas generated by Gen AI with your own thoughts, integrating Gen AI

ideas with other literature, critically evaluating Gen AI outputs, maintaining transparency about Gen AI usage, enhancing your learning and ensuring comprehension despite using Gen AI, and personal development through using Gen AI as an assistant. If you directly used text or data generated by Gen AI, ensure it was cited appropriately.

Ethical use statement:

**AI was used strictly for debugging and explaining difficult concepts for my understanding In no way was it used to construct entire parts of my assignment or do any analysis.**

**Q6. Why did you use Gen AI?**

**debugging and explaining difficult concepts.**

**Signature:**

|                   |                                                                                    |
|-------------------|------------------------------------------------------------------------------------|
| Student Signature |  |
| Date              | 3/9/2026                                                                           |

---

Note: The Department of Education Innovation would like to thank Prof. Celeste Combrinck and Ms. Nelé Loubser for their innovative ideas, which have been instrumental in creating our new form.
